Upgrade to Texture for a new depth of color and added durability.

The granular finish of SMP with Texture combines a matte appearance with shimmering tones to provide a depth of color never before seen on traditional metal panels.

Plus, our Texture finish features Central Guard®, our specific combination of everything that goes into making the highest-quality metal panels. It is a guarantee that you have the best protection and a lifetime paint warranty.

Choose Texture for a look similar to traditional shingles with the benefits of a metal roof.

- Mimics the texture of shingles.
- Reduces glossiness and glare often associated with metal roofing.
- More scratch resistant.
- More slip resistant during installation.
- 26 ga. matching trim.

Traditional SMP
Charcoal

SMP with Texture
Mineral
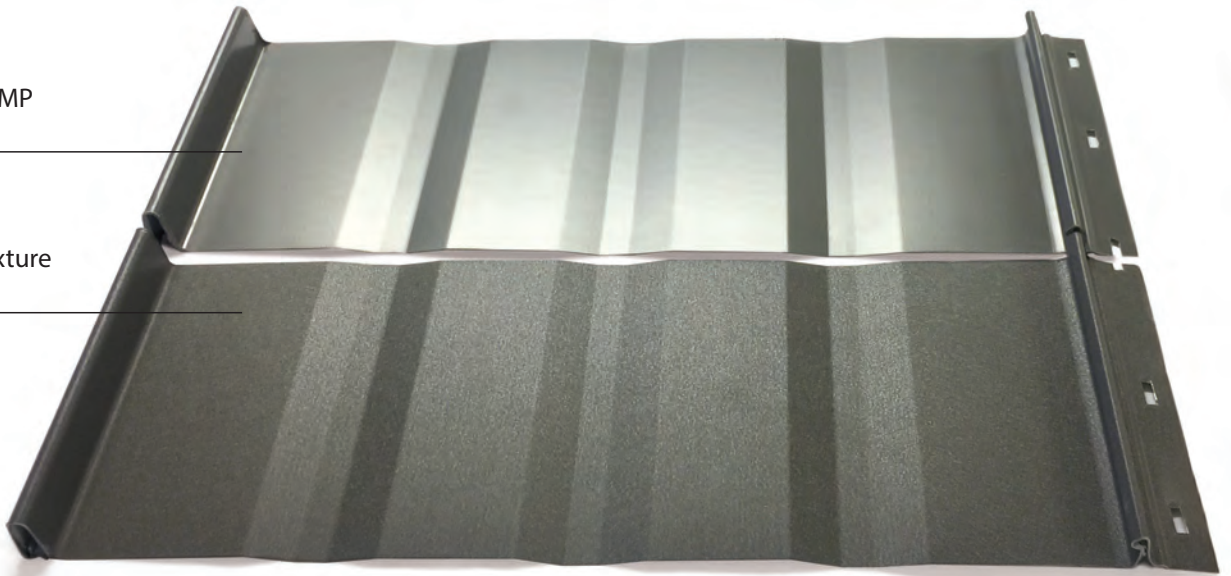

Notice how the light reflects off our traditional smooth finish creating a glare, but the Texture finish breaks up the light to give a deeper, richer color.
